

A315 AirTamer Personal Air Purifier

The AirTamer® Advanced A315 is a portable air purifier that is easily rechargeable and convenient to bring around. Not only does it come with a sleek design, the A315 is able to continuously emit healthy negative ions that repel airborne pollutants to give you cleaner air.

Through its electrostatic purification technology, the A315 is able to purify an area of 90cm of cleaner air around you. It is able to remove micron sized pollutants such as viruses, pollen, smoke, molds and dust mites better than even traditional air purifiers (e.g. HEPA).

The AirTamer is wearable and can be conveniently brought out to purify the air during your daily commute or on your travels to destinations battling with polluted air.

Unique Features

- Battery level indicator
- Replaceable ion emission brush to restore and maintain its original capability.
- Discrete pocket clip.
- Premium, removable lanyard for enhanced look and feel. Lanyard is adjustable with breakaway function for extra safety and convenience.
- Blinking green “on” indicator light indicates that the AirTamer® is in operation.
- Power Boost Technology for 9 times more cleaning power.
- Rechargeable battery with 40+ hours of run time per charge.
- Inclusive of USB charging cable
- No need for maintenance as it uses negative ions for the air filtering instead of manual filters that need to be cleaned.
- Quiet operation - No noisy fans or motors.
- Ultra-compact
