

BRPROTECT 30 DAYS ANTI-MICROBIAL SPRAY

- Active Surface Protection for **30 days**
- Kills **99.99%** of Bacteria and Viruses
- Suitable on **All Surfaces**
- Alcohol Free & Non-Toxic

Spray on all common touch points after cleaning.

BRProtect will not wash off during your routine cleaning procedures.

BRProtect is a revolutionary disinfectant spray with anti-microbial technology. When applied to surfaces, it forms an invisible and odorless shield that attracts bacteria and harmful viruses and electrocutes and kills them upon contact with the surface.

BRProtect coated surfaces remain protected continuously for up to 30 days.

BRPROTECT ANTI-MICROBIAL MICROFIBRE CLOTH

- **No Cross-Contamination:** Delivers continuous self-disinfection and thereby protection from unintentional cross-contamination
- **Super Large: 75 cm by 35cm.**
- Premium woven **400gm²** material cloths which can absorb 10x more than others.
- The microscopic structure of our cloths enables them to attract, trap and capture the tiniest particles of dirt and germs
- **Self-cleaning:** The cloths self-disinfection properties are not removed even with repeated washings.
- Works well with **BRProtect Anti-Microbial Spray**

Antimicrobial Properties

- Treated with BRProtect which provides it with continuous self-disinfection properties
- Prevents the growth of the organisms that cause mildew and odour

Care Instructions

- After use, rinse well in water and let dry
- The cloth can be laundered; wash separately and avoid fabric conditioners. Avoid the use of a dryer.
- Washing will not remove or degrade its antimicrobial properties, in fact keeping them regularly laundered increases their efficiency
