

HUMMER H3 MULTIFUNCTIONAL POWER BANK

Have this stored in the boot of your car — it'll come in handy should your vehicle battery run out of juice. It is powerful enough for cars with engine capacity of up to 3.5L (for petrol) and 2.0L (for diesel). Not only can the H3 jump start a dead 12V battery of a petrol vehicle in seconds, it can act as a power bank for all portable electronic devices. It only takes an hour for a smartphone to be fully charged.

You can even use it as a torch light, thanks to a built-in LED emergency light. Best of all, the standby time lasts up to six months.

Product Specifications

- Battery Capacity: 6000 mAh (22.2Wh)
- Battery Type: Lithium-ion
- Battery Life Cycle: 1000+
- Battery Standby Time: Up to 6 months
- Jump Start Current: 12V / 150 - 300A
- USB Output: 5V / 2A
- Dual Input Charging System: USB 2A/Car adaptor
- Dual Reverse Polarity Protection and over-charge/over-discharge protection
- Operating Temperature: -20°C to 60°C
- Dimensions: 135mm x 78mm x 15mm
- Weight: 210 grams
