

Rechargeable LED Safety Light with Magnet

Description and Features:

- The new 9 in 1 Universal LED Flashing Light is an essential piece of equipment for bikers, police, firefighters, and to be used in any emergency situation. The compact 11cm lights emits a 360° of ultra-bright light from an array of 16 LEDs, visible up to 1.5km.
- Compact conception (à~ 11cm), very resistant (we can drive on it!), equipped with a very strong magnet to mount on the vehicle for a better visibility/security.
- Easily Rechargeable on sector/ in the car, thanks to a furnished connector with magnet (very simple, put the connector on the + & -, so no need to open the lamp!)
- Ideal for:
 - ✓ Accidents or emergency situation
 - ✓ Traffic emergencies, firefighters, police,...
 - ✓ The bikers (they don't have warning triangle)
 - ✓ Car break-down
 - ✓ Agricultural vehicles
 - ✓ Boats & outdoor sports (bicycle,...)
